SWAGGING

Swagging lends a wonderfully dramatic flourish to any tent ceiling. Simple fabric swags take the ambiance to a whole new level. Whether you use one fabric and color or use several, the impression is one guests will not soon forget.

◀ **Country Elegance:** The soft green and ivory swagging combined with crystal chandelier groupings creates unparalleled elegance.

▶ **Rustic Elegance:** Burlap and Terracotta swagging in this dinner tent set the ambiance for this barn-themed event.

◀ **Hollywood Glam:** The ivory & white fabrics have different shades and textures. Great way to get lots of wow factor in a white tent.
